

Title: Classroom Video Presentation System

Product(s):	1 ALTUSEN KN9116 KVM Over the NET and 10 ATEN CE-250R/L Video Extenders
Location:	Education Centers, Schools, Universities, Meeting Facilities, Presentation Rooms
Challenge:	<ol style="list-style-type: none"> 1. An instructor needs to remotely control, monitor and operate the computers of 10 students. 2. An instructor needs to simultaneously view the screens of all students on his or her own monitor.
Solution:	<ol style="list-style-type: none"> 1. The instructor can connect his or her own computer to a student's computer through the KN9116. In addition, the KN9116's Panel Array Mode enables the instructor to simultaneously view the video from up to 16 computers. 2. The CE-250R/L can extend the distance between the instructor's computer and the students' computers by up to 150 m.
Advantages:	<ol style="list-style-type: none"> 1. In order to improve the interactivity of the class, the instructor can immediately explain and demonstrate depending on the learning situation of students. 2. The instructor does not need to leave his or her seat, thus improving the effects of teaching and learning.
